Subject: West Street and Hancock Street Senior Living Community Projects

Hello,

My name is Cynthia Foley. I reside at 142 Oakhill Ave. I am opposed to the 2 projects in the SUBJECT line above. I believe the impact to the aquifer hasn't been sufficiently reviewed, given conditions now and in the future. From what I can gather, climate change isn't factored into the impact assessment. If we don't know what the impact will be, how can we in good conscience allow the changes, only to find out that we've negatively impacted the downstream communities? I understand that we cannot predict the future; however, risk assessors such as insurers are creating models to use for projections. We should expect the same.

Sincerely,
Cynthia Foley
